

SPECIAL HANDLING

No. 63-090

25 September 1963

JIM

Dear Jim:

In our recent phone conversation I think I pointed out that the total requirement of [redacted] indicated on the spread sheet for Fairchild's Contract FI-5777 was short. I presume you talked to STATINTL [redacted] to get [redacted]. As you can see from the attached memorandum confirming the negotiations the [redacted] consists of the basic fixed price of [redacted] plus a fixed price of [redacted] for spares. It appears, however, that Jerry failed to give you the cost of the field support of [redacted] which will be handled as a separate T&M contract at some later date when the field support is required. In any event this should be in FY-1964 and I am, therefore, asking you to get this [redacted] back into the budget if at all possible.
